

Recycle more in Southfields!

Frustrated about the amount of rubbish you put in the bin that could be recycled? Now there is an answer, Recycle More Southfields!

 @RecycleMoreSouthfields

A group of keen local residents have teamed up with TerraCycle UK, an innovative company that handles hard-to-recycle materials, alongside encouraging greater use of Wandsworth Council's recycling sacks.

How it works

Step 1

Sign up today by emailing us at recyclemoresouthfields@gmail.com. We will send you a link to our recycling WhatsApp group and a schedule detailing what can and can't be recycled through TerraCycle locally.

Step 2

Start saving those items like crisp packets, home & beauty products and pet food packaging (washed & dried) that you currently throw away and deliver them to our recycling points. We collect different items each week and this will be explained in the schedule, which we will send you.

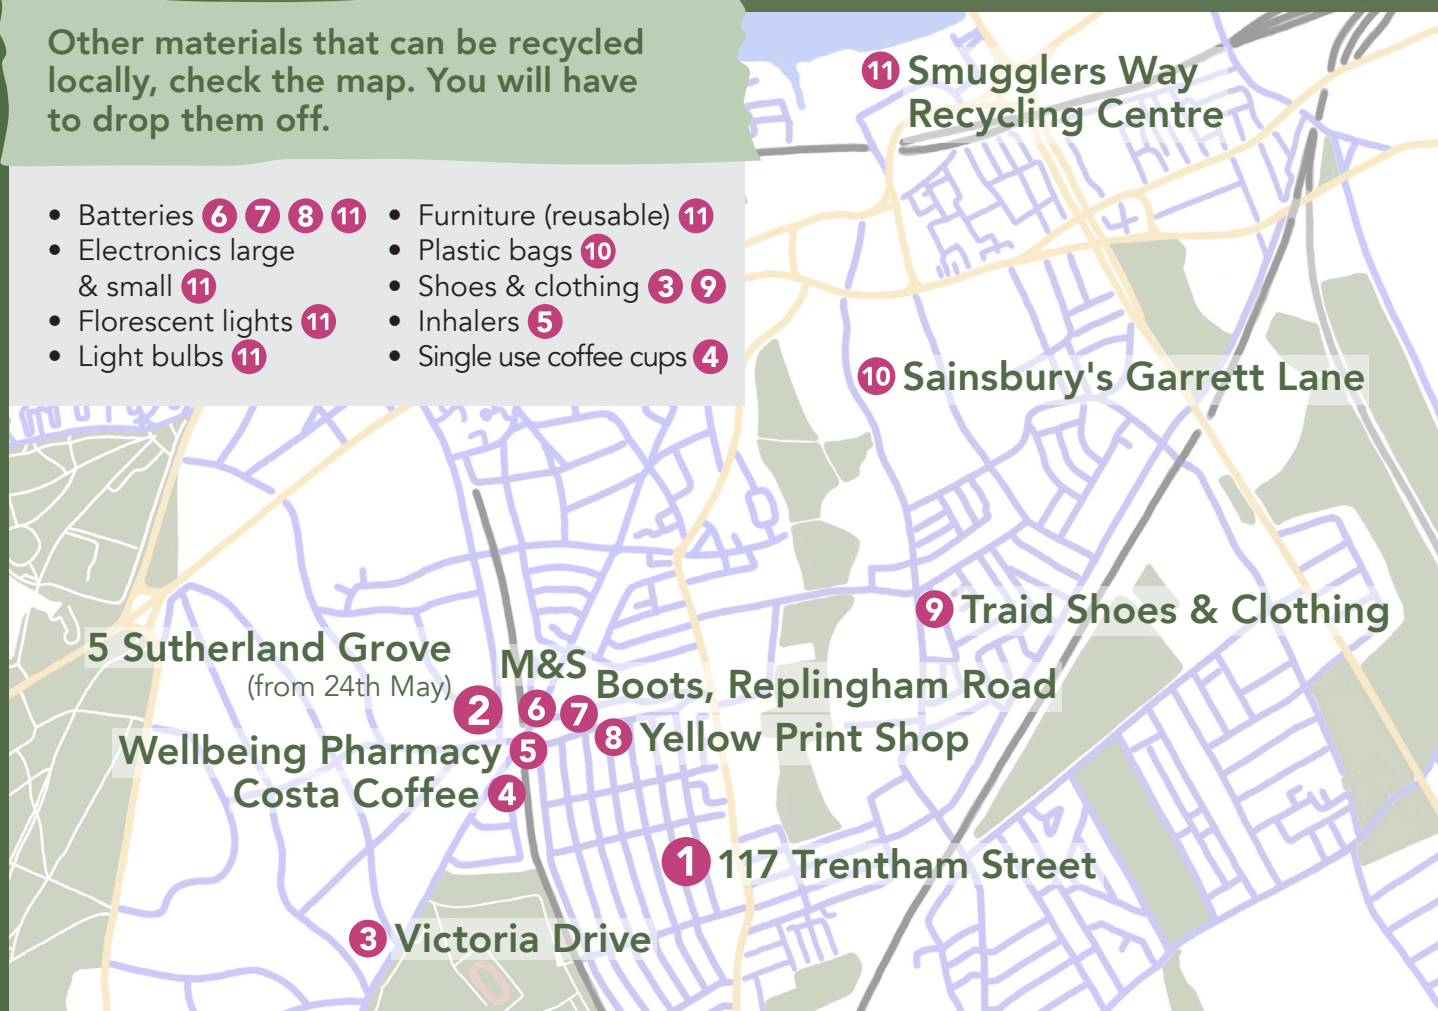

Plastic materials that we can recycle and you can deliver locally at **1** & **2** on the map

- Baby food pouches & packets
